Data Mining CSI 531

HW 1(A)

1. NAME: AATMAN TOGADIA

STUDENT ID: AT227198

MAJOR: COMPUTER SCIENCE

2. PREVIOUS STUDY: I completed my undergrad from Ahmedabad, India. I have a bachelor's of engineering degree in Information Technology.

Work experience: I only have work experience as a student intern (Aug 2014 – May 2015), Where I did my final year project developing an iOS web application.

3. Computer background: I have a good knowledge and skills in programming languages like C/C++, HTML 5 and CSS 3. And apart from that I have good knowledge in MySQL.

4. Why taking this course: I had a "Data mining and data warehouse" Course during my undergrad, I found it very exciting and interesting. Since then I always wanted to learn more about Data mining and data analysis. And apart from that I have got amazing reviews about this course, It is one of the best CS course offered at our university.

5. Expectation from this course: I expect to learn more about data analysis and especially the python language; I believe I want to take my career towards data analysis field.

6. Topics for team project: I have not decided yet but I did some research on the internet and found some topics like spam detection, raud detection etc.

7. Other feedback: Really looking forward for taking this course doing well in it. Thanks
